4 _Remote, U.S._  

5 ---  

6 ---  

7  

8 ## Professional Summary
9 Principal Product Designer with over two decades of experience spanning brand building, complex data-modeling systems, and AI-driven SaaS experiences. Bridges business strategy, UX, and system architecture to shape high-impact, enterprise-grade solutions that balance design craft with technical depth.  

10 ---  

11 ---  

12  

13 ## Core Skills & Tools
14 Product Design Leadership • Research & Discovery • Design Systems • Software & Data Architecture •
15 AI-Assisted Product Experiences • SaaS / Fintech / eCommerce / Compensation Platforms • Figma • Next.js
16 • Tailwind • Supabase • PostgreSQL • Mapbox • WordPress/WooCommerce • End-to-End Product Ownership  

17 ---  

18 ## Select Work Experience  

19  

20 ### CaptivateIQ – Principal Product Designer _(2023-Present)_
21 - Principal Product Designer for the company's next-generation **data-modeling** platform.
22 - Partnered with Product and Engineering leadership to re-imagine and rebuild core data-modeling infrastructure supporting existing purpose-built applications (ICM / Sales Planning) and powering future enterprise operations modeling (FP&A / Budgeting).
23 - Leading experience design for AI integrations platform-wide.  

24 ---  

25 ---  

26  

27 ### Automattic / WooCommerce – Product & Design Lead _(2018-2022)_
28 - Shipped some of the most impactful products of my career, touching millions of merchants globally.
29 - Defined the IA and end-to-end UX for WooCommerce Payments in partnership with Stripe.
30 - Balanced merchant and consumer insights through tear-downs, interviews, and IA mapping.
31 - Led end-to-end UX/UI for WooCommerce Analytics, a re-imagined core analytics package for WooCommerce merchants.  

32 ---  

33 ---  

34  

35 ### Armada Skis – Founding Art Director _(2002-2006)_
36 - Shaped the brand's visual and cultural identity across print, digital, hard goods, and soft goods.  

37 ---  

38 ---  

39  

40 ## Side Projects / Independent Work
41 **SpotAlert.app** – Surf forecasting and alerting platform leveraging ECMWF oceanographic / weather data and NOAA buoy data. Designed and built full stack (**Next.js + TailWind + Supabase**) with global wave models and custom alert logic.  

42  

43 **BetterList** – iOS checklist app built for minds that need a little extra focus. In App Store review.  

44 ---  

45 ---  

46  

47 ## Education
48 Entirely self-taught designer and systems thinker, with over two decades of continuous learning through professional practice across design, engineering, and product strategy.
